Rules sets

1th Rule set
- One form must be decreased at 80% do it 5 times
- Second form must be taken and place on top of another form
- Then select all forms and decrease half size
- Then take third form and rotate it at 40 degrees

2nd Rule set
- Rotate one form at 180 degrees
- Decrease another form at 70%
- You must reflect at least one form

3rd Rule set
- Make one form transform to multiply objects going in a circle
  EX.
- Second form must become smaller by 35%
- The third form must stay the same form or change colors

4th Rule set
- One form must stay the same
- One for must be reflected with it self
- One for form must go inside it self

5th Rule set
- One form must rotate 20 degrees
- Then the next form must go in the center of the first form which was rotated but a much smaller size
- The third form must then go around the two forms reflecting it self from top to the bottom. For example if third form must be go the same direction on the top and the bottom. As well as the sides have to be facing the same direction.
